# Color Naming Task

- In this task, you will see one word in the middle of the screen and four words along the bottom.

- You need to choose the word along the bottom that names the *color* that the center word is printed in.
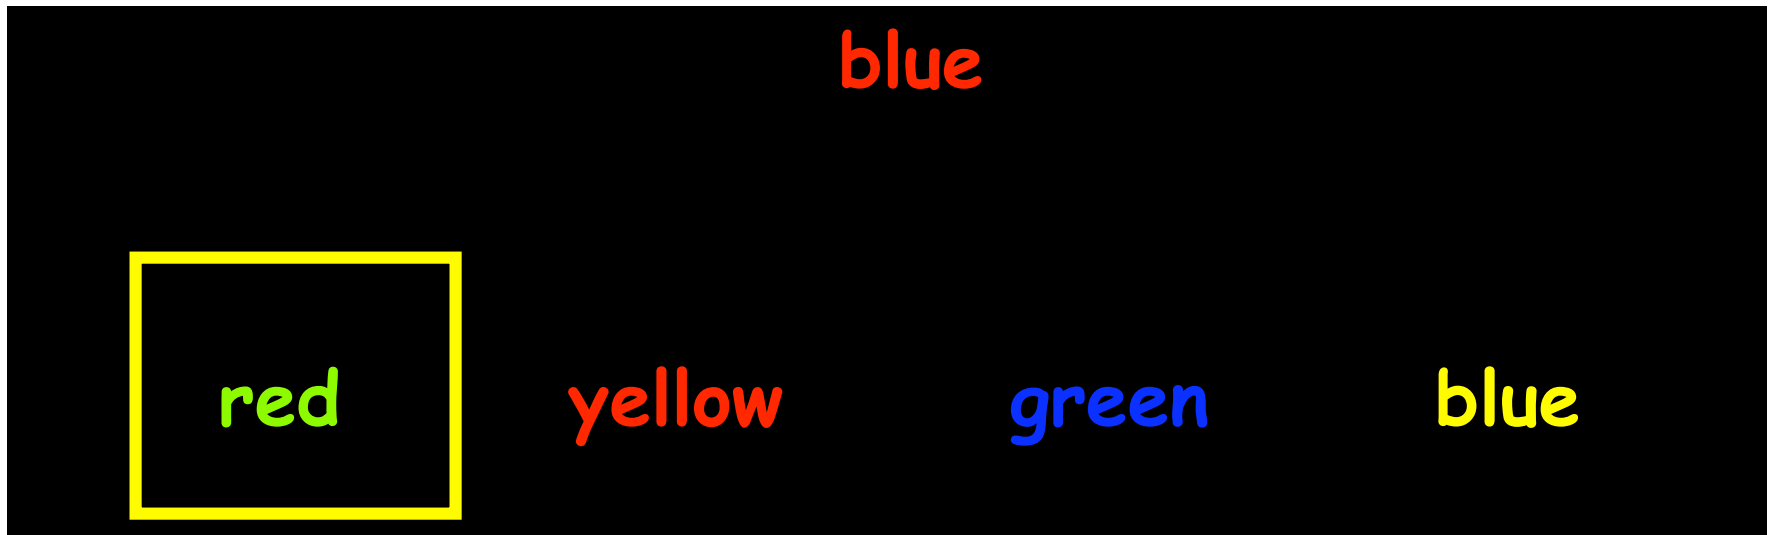

Color Naming Task

- The task can be difficult, because you have to focus on the *COLOR* in which the center word is printed, not on what the word reads. Here is an example:
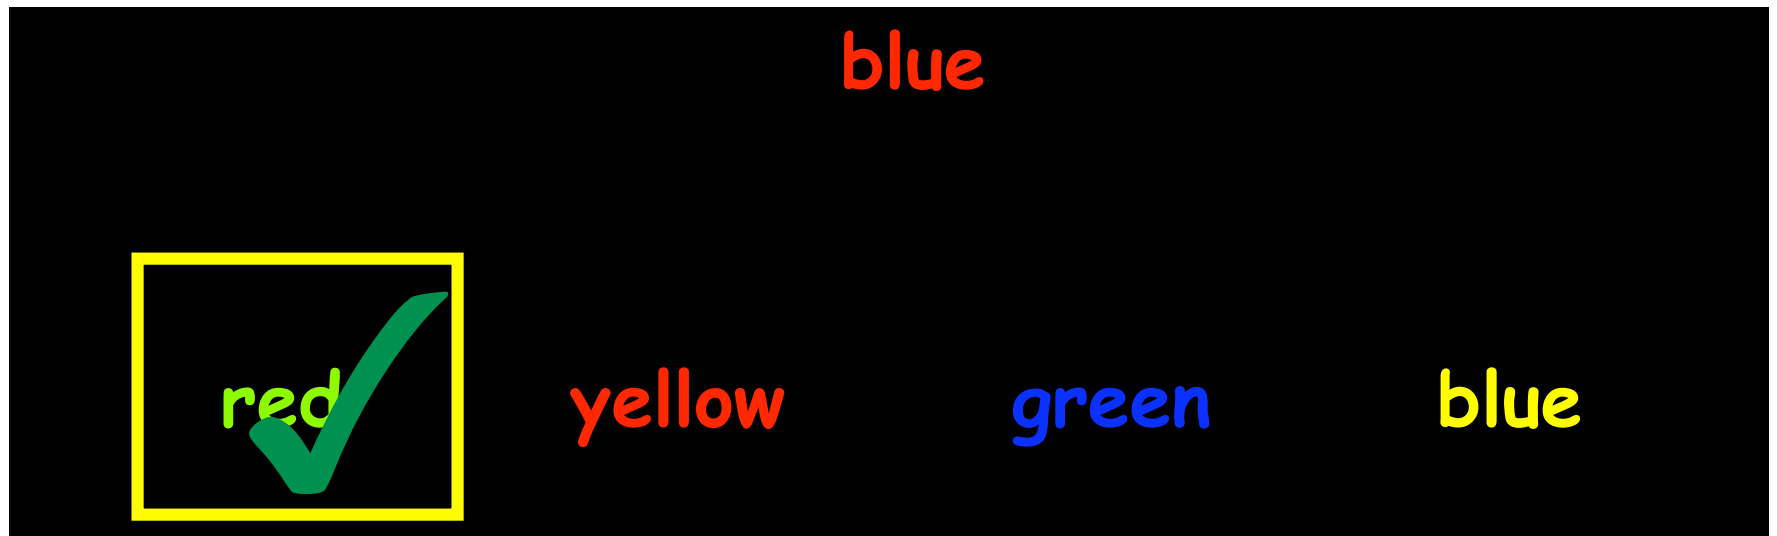

blue

red   yellow   green   blue
